Meeting No 4/2026

Meeting date 23 April 2026

7 (55)

1

Opening of the meeting

The chair will open the meeting.

Agenda

Faculty Council of the Faculty of Health Sciences

Meeting No 4/2026

Meeting date 23 April 2026

2

Legitimacy and presence of a quorum

In accordance with the UEF University Regulations, meeting notices of a multi-member administrative body must be sent at least seven days prior to the meeting, unless the administrative body has decided otherwise.

The meeting notice was sent on 16 April 2026.

According to the UEF University Regulations, multi-member administrative bodies of the university have a quorum when at least half of the members, including the chair, are present. By the decision of the chair, a multi-member administrative body can hold its meeting by email or, either fully or in part, via a video conference, telephone, or some other remote participation means. The chair has decided that the meeting be organised as a hybrid meeting (Me201+Teams).

Motion The meeting is deemed lawful and quorate. The agenda is approved.

The Dean's proposal to the Rector of the University of Eastern Finland on the appointment of MD Noora Neittaanmäki to the post of Associate Professor of Dermatology and Venereology (Tenure Track): Hearing of the Faculty Council

According to the University Regulations of the University of Eastern Finland, the Dean shall make proposals to the Rector on the persons to be appointed to professorships with a term of two years or over, to permanent teaching and research positions compliant with the four-stage research career model, and to Tenure Track positions after hearing the Faculty Council.

The post of Associate Professor of Dermatology and Venereology (Tenure Track) that complies with the faculty's human resources plan is hosted by the Institute of Clinical Medicine at the School of Medicine. The post was advertised through a public notice of vacancy and one person submitted an application by the deadline: MD Noora Neittaanmäki.

A person to be appointed as an Associate Professor in the Tenure Track shall hold a suitable doctoral degree and have good teaching skills. Furthermore, a person to be appointed as an Associate Professor in the Tenure Track shall have the prerequisites for fulfilling the qualification

requirements of a Professor by the end of the Tenure Track term (UEF University Regulations).

The Dean of the Faculty has invited the following experts to provide statements on the applicants' scientific qualifications for the position of Professor/Associate Professor: Professor Liv Eidsmo (Karolinska Institutet) and Professor Teea Salmi (University of Tampere). Both experts assessed the applicant to be qualified for the post of Associate Professor.

Based on the application documents, interviews and expert statements, the Appointments Committee proposes that the vacant post be filled at Associate Professor level and that MD Noora Neittaanmäki be appointed to it for a fixed term of four years as from 1 May 2026.

No trial lecture will be required.

The proposal of the Admissions Committee, expert statements and the application documents of the person proposed to be appointed to the position are enclosed with this agenda item as appendices.

The criteria, objectives and results to be achieved during the term in order to proceed to the next level of the Tenure Track will be agreed in detail with the appointee to the Associate Professor position when signing the contract of employment.

Motion

The Faculty Council will discuss the proposed appointment.

Granting the title of docent in Neurosurgery to MD Terhi Huuskonen

MD Terhi Huuskonen has proposed that she be awarded the title of docent in Neurosurgery at the Faculty of Health Sciences of the University of Eastern Finland. The applicant's CV and list of publications are enclosed with the agenda item as Annexes.

The Docent Committee of the Faculty of Health Sciences stated at its meeting that the docentship is purposeful from the perspective of teaching and research activities.

Where required, a statement will be requested from a minimum of two experts on the scientific qualifications of a person applying for the title of docent. The Docent Committee of the Faculty of Health Sciences stated when it addressed MD Terhi Huuskonen's application that no external evaluation procedure is required to determine her scientific qualifications. The Faculty of Health Sciences of the University of Eastern Finland has awarded an experimental title of docent in neurosurgery to MD Terhi Huuskonen through an expert procedure, as of 1 July 2020. The reason for the experimental title of docent was the lack of the two years of service after completing the specialist degree in medicine, which is required for a

Agenda

Meeting No 4/2026

Meeting date 23 April 2026

24 (55)

docentship in a clinical field. The applicant now fulfils the requirements for practical familiarity for applying for the title of docent in neurosurgery.

In accordance with section 89 of the Universities Act (558/2009), the university may award the title of docent upon application to a person who has comprehensive knowledge of his or her own field, a capacity for independent research or artistic work demonstrated through publications or some other manner, and good teaching skills. The Docent Committee of the Faculty of Health Sciences stated, when it processed the application, that the applicant still meets the criteria of the Faculty of Health Sciences as regards teaching skills.

According to the UEF University Regulations, the Faculty Council shall decide on awarding the title of docent.

The applicant meets the qualification requirements of a docent specified in section 89 of the Universities Act and the criteria set out in the docentship guidelines of the Faculty of Health Sciences for the title of docent.

Motion

The Faculty Council states that the applicant meets the qualification requirements specified in section 89 of the Universities Act and the criteria set out in the docentship guidelines of the university for the title of docent and decides to grant the title of docent in neurosurgery to MD Terhi Huuskonen.

12

Confirming amendments to the curriculum for the scientific Licentiate degree

According to section 9 of the University Regulations of the University of Eastern Finland, the Faculty Council will make decisions concerning curricula and degree requirements. According to section 18 of the Education Regulations of the University of Eastern Finland, a curriculum is drawn up for each degree programme, which constitutes a skill-based tool for teaching, planning of studies and supervision. The faculty and the department/school shall develop and assess the curriculum regularly. Feedback and statistical data collected on teaching, studies, guidance and degrees shall be utilised in the development.

The curriculum for the scientific Licentiate degree of the Faculty of Health Sciences for 2025–2028 was approved by the Faculty Council on 16 April 2025. The following changes are proposed to be made to the confirmed curriculum for 2026–2028:

- The new person in charge will be Vice Dean (Research and Innovation) Ville Leinonen.
- The ECTS credit limits of the degree will be harmonised to comply with the new doctoral programme (transferable skills studies 5–10 ECTS, studies in the discipline and field of research 20–25 ECTS).

14

Confirming amendments to the curriculum for the Bachelor's Degree Programme in Human and Planetary Health for the academic years 2026–2029

According to section 9 of the University Regulations of the University of Eastern Finland, the Faculty Council will make decisions concerning curricula and degree requirements. By its decision dated 22 January 2026 (record entry 1970/00.01.01/2020), the Faculty Council of the Faculty of Health Sciences transferred the approval of changes made to the curriculum for the Bachelor and Master level studies, which fall within its remit, to the Vice Dean (Education). Significant changes are always approved by the Faculty Council.

The Faculty Council of the Faculty of Health Sciences has approved the Bachelor's Degree Programme in Human and Planetary Health for 2026–2029 at its meeting of 22 January 2026 (Dnro 98/03.00.01/2026). The following changes need to be made to the confirmed curriculum:
The number of ECTS for the Academic and Working Life Skills module, which is part of the compulsory studies, is changed from 20 ECTS to 20–34 ECTS. This means that the scope of compulsory studies is 20 ECTS for students whose language of education is Finnish or Swedish, and 34 ECTS for students whose language of education is something other than Finnish or Swedish.

Agenda

Faculty Council of the Faculty of Health Sciences

Meeting No 4/2026

Meeting date 23 April 2026

32 (55)

The number of ECTS for the Elective Studies module is changed from 30 ECTS to 16–30 ECTS. This means that students whose language of education is Finnish or Swedish must complete 30 ECTS of optional studies, and students whose language of education is something other than Finnish or Swedish must complete 16 ECTS of optional studies. In addition, four S2 integration courses will be added to the compulsory language studies of students whose language of education is something other than Finnish or Swedish. The changes are presented in more detail in the annex “Curriculum of the Bachelor’s Degree Programme in Human and Planetary Health”.

The above changes will be made to the curriculum because the Human and Planetary Health degree programme is being developed into a functionally bilingual programme. The aim of functionally bilingual degree programmes is to enable international students to acquire sufficient proficiency in Finnish for integration into society and employment in expert positions corresponding to their education. For this reason, the amount of compulsory Finnish language studies of students whose language of education is something other than Finnish or Swedish is increased to meet the goals of functionally bilingual education.

The updated curriculum for the degree programme for the academic years 2026–2029 is enclosed with the agenda item as an annex.

Motion

The Faculty Council will confirm the changes made to the curriculum for the Bachelor’s Degree Programme in Human and Planetary Health as proposed.
